

Starting in November - Monthly Focus

Posted by Eproadmin2 - 2010/10/11 21:08

I would like to start a new event here at the OS -- a monthly focus topic. This would be a new forum with a monthly "Thread" for the focus topic for people to comment, discuss, post links and articles. Then a monthly Live web session where anyone interested can log in and have an hour to chat, share ideas, ask questions.

I'm looking for suggestions for focus topics. The topic for November will be: Open Source - What's in it for you? I'll put the forum up in the next few days. (It's not November just yet.)

Please spread the word. We want lots and lots of people to get involved and share their knowledge, questions, concerns, etc.
